INTERNSHIPS

Tech Script Solutions, Coimbatore, India

August 2024 - PRESENT

- Developing front-end applications using HTML, CSS, and JavaScript.
- Learning full-stack development principles.

App Exert, Coimbatore, India

June 2023 - PRESENT

- Building a website using HTML, CSS, and JavaScript.
- Gaining hands-on experience in web development.

Elgi Equipments, Coimbatore, India

September 2023 - November 2023

- Digitized air compressor systems for enhanced client interface and operational insights.
- Gained valuable insights into industrial operations and digital transformation.

EDUCATION

B.Tech in Artificial Intelligence and Data Science – *Jansons Institute of Technology | Coimbatore, India*

2021 - 2025

GPA: 8.2

Key Skills: Python, Machine Learning, Deep Learning, Data Analysis, Cloud Computing

Coursework: Machine Learning, Deep Learning, AI, Data Mining, Data Structures, Algorithms, Computer Networks, Databases, Software Engineering, Probability & Statistics, Numerical Methods

PROJECTS

Rainfall Prediction: Developed a machine learning model to forecast rainfall using historical weather data.

Diabetes Prediction: Utilized machine learning techniques to predict diabetes risk based on patient health metrics.

SKILLS

Programming Languages: Python, Java

Web Development: HTML, CSS, JavaScript

Machine Learning: Neural Networks, Machine Learning Algorithms

Cloud Platforms: AWS

CERTIFICATION

Python Course Completion - VES

AWS Academy Cloud Foundation

Naan Mudhalvan - Neural Networks

LANGUAGES

ENGLISH, TAMIL
